Part B 40-45 DEBCF

Section III Translation

46. 【参考答案】

互联网是由位于世界各地相互通信的计算机连接而成的巨大的计算机网络。

互联网是计算机网络的国际性的集合，这些网络都符合具有地址和命令的标准体系，并经骨干网连在一起。互联网始建于1969年，当时美国国防部为连接少数几所大学和协议企业而建立了一个全国性网络。最初的想法是要提升运算能力并可由许多地点的用户共享，并且通过在用户间提供多条路径来弄清哪一种计算机网络能够在核战或其他灾难中幸存。

几年间，新的网络接入使越来越多的计算机加入进来。在1973年进行了第一次与挪威和英国的国际连接。今天，有成千上万的计算机网络和数百万台计算机与互联网相连。互联网发展如此之快以至于没有人能准确地说出网上有多少用户。

Section IV Writing

Part A

47. 【参考范文】

Dear Frank,

I am so pleased to invite you to attend the discussion meeting over Sino-American Cultural Differences held at the International Communication Center on December 6, 2015.

The discussion meeting aims to create a meaningful platform for American students and Chinese students to build up friendship and strengthen mutual understanding. At the beginning of the meeting, the president of our university will deliver a welcome speech, after which all the attendees can chat and exchange ideas. Considering your profound interest in intercultural communication, the meeting surely cannot be missed. It will be a great opportunity for you to make friends with Chinese students and have a deeper understanding of Chinese culture.

I really hope you could attend the meeting.

Yours sincerely,

Li Ming

Part B

48. 【参考范文】

The chart indicates the numbers expanding each year of foreign students studying in China from 2006 to 2012. Between 2006 and 2008, no more than 200 thousands international students came to China for study and the numbers increased slightly. However, from 2010, overseas students to our country were witnessed with a sharp growth from 154 thousands to 373 thousands in 2014.

What exactly contribute to this significant change? Reasons can be listed as follows: first of all, with the rapid economic development in China, we have dramatically enhanced our international influence and standing, which drives foreign students in mounting numbers to show great interest in understanding China. Besides, Chinese traditional culture has attracted many foreigners to set foot on Chinese soil. In the meanwhile we have to mention corresponding policy launched by educational department directly boost the number of American students studying in China each year.

Obviously, the figure of foreigners choosing study in China will continue to rise. Therefore it is necessary to construct more perfect and open educational platform to confront with this tendency.
